8. [] CI Staff, called and is forwarding to us information on the [] case which he thought we might like to discuss with the House Committee on Un-American Activities.

9. [] Talked with Jay Sourwine, Senate Internal Security Subcommittee staff, regarding Senator Eastland's letter requesting information on a number of "spy cases" and the Director's response indicating that we would be in touch. I advised Sourwine that for the most part, these cases involved American citizens or the activities of foreign nationals in the United States, neither of which came within the direct responsibility of this Agency but rather were cases handled by the FBI. Sourwine said their letter was merely sent as a catch-all so that they might obtain any information which we had and gave the impression that no pressure was involved in the Subcommittee's request. He did ask, however, if we had any information on these cases. He said the Subcommittee would be interested. With the possible exception of obtaining biographic data from BR, I do not propose to go further with Sourwine on this.
